

Help needed for **Atopic Eczema** study

We are looking for children
aged 1 to 15 years who are currently
experiencing

OR

are newly diagnosed with
ATOPIC ECZEMA,

The study involves the use of a product,
(which is widely available online and in chemists),
by patients
as their only regular leave on gel
(moisturiser) for 4 weeks,
and will require 3 visits to the study centre.
